Gel polish UV/LED

## HYBRID PROFESSIONAL

Hybrid Professional nail polishes is the palette of 16 colors and specially selected base and top. Wide, comfortable brush and easy to apply formula will enable you to perform ideal, professional hybrid manicure without leaving home. You can enjoy its durability even up to two weeks.

Hybrid base is the basis for hybrid manicure. Its main task is to protect nail plate (it is the only coat that sticks to it directly) and to increase adhesion of a nail polish. At the same time the base evens nail plate, thus the manicure is perfect.

The task of the hybrid top is to increase durability of manicure (the top "closes" nail polish and protects it) and to provide beautiful, long-lasting glow.
